

Claims

- [c1] 1.A manufactured device to assist gravity in spinning draining liquid through a P-trap.
- [c2] 2.A device according to claim 1 to help reduce accumulation of debris in P-trap.
- [c3] 3.A device according to claim 1 to help reduce the need for trap cleaning.
- [c4] 4.A device according to claim 1 which helps keep debris entrained in the spinning draining liquid as it passes through the trap.
- [c5] 5.A device according to claim 1 which can easily be retrofitted in any P-trap or installed with new installations.
